

Central Klickitat  
CONSERVATION DISTRICT

## Prescribed Fire Operations on Lands owned by Central Klickitat CD & Eastern Klickitat CD

### Simcoe Mountains East of Hwy 97

Central Klickitat Conservation District and Eastern Klickitat Conservation District are partnered with Mt Adams Resource Stewards to implement fuels reduction projects, including prescribed burns, for wildfire preparedness throughout the county. Our next collaboration includes partnering with The Nature Conservancy to host the Columbia Gorge Prescribed Fire Training Exchange (CG TREX) on CKCD & EKCD owned working lands.

Burning may occur anytime between Wednesday, May 13 and Thursday May 21<sup>st</sup>. Smoke may be visible from Goldendale and surrounding areas and may impact adjacent roads. These burns are carefully planned and scheduled to align with weather, fuel moisture, and air quality conditions that enable safe and effective operations. Because these burns are permitted through the Washington Department of Natural Resources, they are allowed during the Klickitat County burn ban on outdoor burning. **Please do not report**

CG TREX is a peer-to-peer learning opportunity that covers a variety of topics including fire management, ecology, outreach, monitoring, and operational dimensions of planning and implementing prescribed fire.

For more information, please follow Columbia Gorge Trex on Facebook or reach out to the Public Information Officer, Carissa Silvis by phone: (541) 645-5683 or email: [carissa.silvis@usda.gov](mailto:carissa.silvis@usda.gov)
